ABOUT

I am a passionate and dedicated Frontend Developer from Karachi with strong expertise in **HTML, CSS, JavaScript, React, Tailwind CSS, and Firebase**. I have hands-on experience in **React development and modern frontend frameworks**, where I have worked on multiple projects, building responsive, dynamic, and user-friendly web applications. My experience in frontend development has strengthened my skills in component-based architecture, API integration, and responsive UI/UX design.

My background in customer service has enhanced my communication, collaboration, and problem-solving abilities. I am highly motivated to grow continuously in the tech industry, always eager to learn new technologies and contribute to impactful projects that provide excellent user experiences.
